The subrecipient, Virgin Islands Police Department (VIPD), is a central agency of the Government of the Virgin Islands (GVI). VIPD received ARPA SLFRF grant award of \$12,240,146 which includes expected capital expenditures in excess of \$10 million. Expected capital expenditures include:</p> <ol style="list-style-type: none"> <li>1. \$8,094,422 associated with police vehicles and associated costs</li> <li>2. \$2,845,723.82 associated with technology and equipment to support law enforcement response.</li> </ol> <p>These capital expenditures are part of an effort to respond to</p>

Capital Expenditure Justification

increased violence, including gun violence, as a result of the COVID-19 public health emergency. For purposes of the SLFRF program, it is important to note that US Treasury has already recognized that the entirety of the US Virgin Islands was disproportionately impacted as a US Territory.

Description of the harm or need to be addressed

The USVI experiences a very high rate of gun violence and other violent crime. Per research compiled by the Giffords Law Center :

The US Virgin Islands (USVI) also experience staggering levels of gun violence. In 2020, the archipelago saw a firearm homicide rate of 50 per 100,000, 8.5 times the rate of the 50 states

... the USVI's gun death rates outpace the rates of all 50 states, largely fueled by gun trafficking and the use of illegal firearms. In 2020, the USVI was the second leading importer of firearms recovered by law enforcement among all states and territories.

Funding to purchase police vehicles, technology, and equipment to bolster the VIPD's ability to address increased gun violence and prevent trafficking is a critical need in the USVI. This is consistent with the enumerated uses defined in the Final Rule for preventing and responding to violence : Preventing and responding to violence. Recognizing that violence – and especially gun violence – has increased in some communities due to the pandemic, recipients may use funds to respond in these communities through....

Technology & equipment to support law enforcement response

Explanation of why a capital expenditure is appropriate  
The funding of these capital expenditures will allow VIPD to increase its response to increased crime and gun violence. 90% of the present police fleet is out of contract as per the collective bargaining agreement between the VIPD and the Police Unions. The remaining vehicles being utilized consistently whereby there is little to no rest period. The need to purchase new vehicles will increase the scope of our operations and add some future economic benefit to the overall operation of the police department.

Comparison of proposed capital project against at least two alternative capital expenditures and demonstration of why the proposed capital expenditure is superior.

VIPD performed a comparison of purchasing police vehicles (\$8,094,422) and additional technology and equipment (\$2,845,723.82) to two alternative to determine why the capital expenditures are superior and appropriate. Below summarizes this comparison:

1) Alternative 1 – Leasing

a. Contractually leased vehicles are regulated to mileage limits, between 12,000 and 15,000 miles per year with penalties imposed for exceeding the mileage limits. Leased vehicles also have excess-wear-and-tear charges if they are not maintained in good condition. These restrictions are not realistic for law enforcement vehicles. Vehicle lease contracts typically expire after a term of 2 to 3 years. At the completion of the lease term, the vehicle would not be owned by the Government. The vehicle must be returned to the dealer where it will be appraised at a lessor value.

Leasing vehicles costs more as the lessor sets the lease

	<p>payments to make up for the depreciation. These costs will present additional expenditures for the VIPD and would not be cost effective in the long run.</p> <p>2) Alternative 2 – Rental</p> <p>a. The Virgin Islands Police Department has determined that use of a rental vehicles for day-to-day operations is not advantageous to the Government. Long term rental vehicles usually come with mileage restrictions which imposes a severe limitation on the use of the police vehicles. Police vehicles must be retrofitted for law enforcement duties however, rental vehicles cannot be altered in anyway as per the terms of the contract.</p> <p>As determined through a comparison of two alternatives, the purchase police vehicles and additional technology and equipment is prudent and appropriate. It is more cost-effective as opposed to leasing or utilizing existing inefficient equipment.</p> <p>Therefore, VIPD purchased the additional police vehicles, technology, and equipment. This ultimately will result in a more robust response to increased violence, including gun violence and gun trafficking, in the USVI.</p>

Current Period Expenditures	\$0.00
Project Description	WAPA will purchase a generator that is currently being leased in an effort to reduce VIWAPA's electrical generating costs thereby preventing or delaying price increases to households and the broader community of the USVI, a population disproportionately impacted but he pandemic and experiencing high levels of poverty. Home electricity costs are already several times the costs as the mainland United States. Purchasing the generator will provide cost savings over alternative options including leasing the generator.
Does this project include a capital expenditure?	Yes
What is the Total expected capital expenditure, including pre-development costs, if applicable	\$6,750,000.00
Type of capital expenditures, based on the following enumerated uses	Other (please specify)
Capital Expenditure Justification	<p>VIWAPA is in the process of identifying comprehensive strategies to make electrical costs more affordable in the USVI. The ratepayers in the USVI cannot afford to absorb another increase in electrical costs, in addition to rising inflation rates and an already high cost of living. VIWAPA's lease on generator Unit 27 ended in June 2022 and the decision was made to purchase generator Unit 27, instead of leasing another the generator or increasing the usage of existing generator Unit 23. Unit 23 was determined to be inadequate as it has a materially higher heat rate meaning it would require significantly more fuel to create the same amount of power generation. Additionally, if VIWAPA used Unit 23, VIWAPA would end up violating its environmental decree due to how inefficient the generator runs.</p> <p>VIWAPA performed a comparison of purchasing Unit 27 for \$6,750,000 compared to two alternatives to determine why the purchase of Unit 27 is superior and appropriate. As detailed in the justification memo for this project, through a comparison of two alternatives, the purchase of generator Unit 27 for \$6,750,000 is prudent and appropriate. It is more cost-effective as opposed to leasing or utilizing existing inefficient equipment. Therefore, VIWAPA purchased generator Unit 27. This ultimately resulted in an electrical generation cost savings and protected the USVI ratepayers from further increases in electrical costs.</p> <p>A detailed justification memo is included for this project.</p>

### 2020

Actual General Revenue	\$892,317,463.00
Estimated Revenue Loss Due to Covid-19 Public Health Emergency	\$103,835,859.00
Were Fiscal Recovery Funds used to make a deposit into a pension fund?	No
Please provide an explanation of how revenue replacement funds were allocated to government services	The GVI continues to invest its revenue replacement funds to help mitigate the impact of revenue shortfalls experienced by USVI agencies. So far, the USVI has used funds to provide government services which addressed critical increases in fuel costs, needs for additional police vehicles, school maintenance, and to provide funding for road projects (Projects 000007, 000038, 000039, 000057, 000060, 000067, 000096). As Treasury has provided recipients wide latitude in using Revenue Replacement funds, the USVI will continue to identify the best use of these funds.
