In 2020, the USVI was the second leading importer of firearms recovered by law enforcement among all states and territories.</p> <p>Funding to purchase police vehicles, technology, and</p>

Capital Expenditure Justification

equipment to bolster the VIPD's ability to address increased gun violence and prevent trafficking is a critical need in the USVI. This is consistent with the enumerated uses defined in the Final Rule for preventing and responding to violence : Preventing and responding to violence. Recognizing that violence – and especially gun violence – has increased in some communities due to the pandemic, recipients may use funds to respond in these communities through....

Technology & equipment to support law enforcement response

Explanation of why a capital expenditure is appropriate

The funding of these capital expenditures will allow VIPD to increase its response to increased crime and gun violence.

90% of the present police fleet is out of contract as per the collective bargaining agreement between the VIPD and the Police Unions. The remaining vehicles being utilized consistently whereby there is little to no rest period. The need to purchase new vehicles will increase the scope of our operations and add some future economic benefit to the overall operation of the police department.

Comparison of proposed capital project against at least two alternative capital expenditures and demonstration of why the proposed capital expenditure is superior.

VIPD performed a comparison of purchasing police vehicles (\$8,094,422) and additional technology and equipment (\$2,845,723.82) to two alternative to determine why the capital expenditures are superior and appropriate. Below summarizes this comparison:

1) Alternative 1 – Leasing

a. Contractually leased vehicles are regulated to mileage limits, between 12,000 and 15,000 miles per year with penalties imposed for exceeding the mileage limits. Leased vehicles also have excess-wear-and-tear charges if they are not maintained in good condition. These restrictions are not realistic for law enforcement vehicles. Vehicle lease contracts typically expire after a term of 2 to 3 years. At the completion of the lease term, the vehicle would not be owned by the Government. The vehicle must be returned to the dealer where it will be appraised at a lessor value. Leasing vehicles costs more as the lessor sets the lease payments to make up for the depreciation. These costs will present additional expenditures for the VIPD and would not be cost effective in the long run.

2) Alternative 2 – Rental

a. The Virgin Islands Police Department has determined that use of a rental vehicles for day-to-day operations is not advantageous to the Government. Long term rental vehicles usually come with mileage restrictions which imposes a severe limitation on the use of the police vehicles. Police vehicles must be retrofitted for law enforcement duties however, rental vehicles cannot be altered in anyway as per the terms of the contract.

As determined through a comparison of two alternatives, the purchase police vehicles and additional technology and equipment is prudent and appropriate. It is more cost-effective as opposed to leasing or utilizing existing inefficient equipment.

Therefore, VIPD purchased the additional police vehicles, technology, and equipment. This ultimately will result in a

	more robust response to increased violence, including gun violence and gun trafficking, in the USVI.

Project Description	WAPA will purchase a generator that is currently being leased in an effort to reduce VIWAPA's electrical generating costs thereby preventing or delaying price increases to households and the broader community of the USVI, a population disproportionately impacted but he pandemic and experiencing high levels of poverty. Home electricity costs are already several times the costs as the mainland United States. Purchasing the generator will provide cost savings over alternative options including leasing the generator.
Does this project include a capital expenditure?	Yes
What is the Total expected capital expenditure, including pre-development costs, if applicable	\$6,750,000.00
Type of capital expenditures, based on the following enumerated uses	Other (please specify)
	VIWAPA is in the process of identifying comprehensive strategies to make electrical costs more affordable in the USVI. The ratepayers in the USVI cannot afford to absorb another increase in electrical costs, in addition to rising inflation rates and an already high cost of living. VIWAPA's lease on generator Unit 27 ended in June 2022 and the decision was made to purchase generator Unit 27, instead of leasing another the generator or increasing the usage of existing generator Unit 23. Unit 23 was determined to be inadequate as it has a materially higher heat rate meaning it

Capital Expenditure Justification	<p>would require significantly more fuel to create the same amount of power generation. Additionally, if VIWAPA used Unit 23, VIWAPA would end up violating its environmental decree due to how inefficient the generator runs.</p> <p>VIWAPA performed a comparison of purchasing Unit 27 for \$6,750,000 compared to two alternatives to determine why the purchase of Unit 27 is superior and appropriate. As detailed in the justification memo for this project, through a comparison of two alternatives, the purchase of generator Unit 27 for \$6,750,000 is prudent and appropriate. It is more cost-effective as opposed to leasing or utilizing existing inefficient equipment. Therefore, VIWAPA purchased generator Unit 27. This ultimately resulted in an electrical generation cost savings and protected the USVI ratepayers from further increases in electrical costs.</p> <p>A detailed justification memo is included for this project.</p>

Project Description	"CSFCDC will host a Youth Summit to engage young people in determining the economic direction of our community. The summit's theme is "Deconstruct to Reconstruct: Visualizing the Future of St Croix." This event is a youth-centered thought leadership summit focused on building and creating a sustainable, vibrant, and equitable community of the future. Students will discuss the impact Covid 19 has had on their lives(talk about challenges and solutions to those challenges), what they want policy makers to consider in reference to the impact of Covid on them and what they wish policy makers had considered as they made decisions to address Covid 19 in their lives.
